This is responsive to the Request for Continued Examination file May 9, 2007.

Claims 7-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. The election was made **without** traverse as noted in the non-Final rejection mailed April 24, 2006.

The text of section 103(a) of Title 35, U.S. Code not included in this action can be found in the non-Final rejection mailed February 13, 2006.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yonehana et al. Patent No. 6,562,934 in view of CAPLUS accession no. 1990:425027 for the Kobunshi Ronbunshu article by Tanaka et al. and European Patent No. 477,440.

The rejection is maintained for the reasons of record set forth in the previous Office actions. The arguments filed May 9, 2007 have been considered but are unpersuasive.

Yonehana et al. in column 8, lines 14-15 of Example 2 shows a reaction product of meta-xylylenediamine (col. 7, lines 36-38, MXDA) and styrene having 0.62 wt% of unreacted MXDA within the claimed maximum of less than 2% by weight.

It would have been obvious to combine the salicylic acid accelerator of Tanaka et al. (CAPLUS abstract) and the European patent (page 3, line 40 to page 4, line 14 and page 5, lines 9-14) in order to optimize the cure rate.

This is a Request for Continued Examination. The claims filed March 5, 2007 after the Final rejection were entered as indicated in the advisory action mailed March 19, 2007. All of the claims are drawn to the same invention and could have been finally rejected on the grounds and art of record in the next Office action.

Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. (MPEP § 706.07(b)). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
